Work history

Full Stack Developer - Lead Developer

Invious Metacorp Pvt. Ltd. | October 2023 – Present

- Spearheaded the development and maintenance of high-traffic web applications and mobile solutions.
- **Batcave.club** : Developed a car club website and integrated PhonePe for payment. Designed and implemented the admin panel at **batcave.admin.club** .
- **Invious.in** : Led the revamp of the company's in-house website, improving UI/UX and backend functionality.
- **VolansInfo.com** : Built and deployed the website and admin panel for the client using the MERN stack.
- **Buytown Hardware Market App** : Developed a web and mobile e-commerce platform for carpenters in Coimbatore, integrating key functionalities like authentication and payment processing.
- **Bootcamp180.com** : Created and deployed a full MERN stack web application for this bootcamp platform with Razorpay payment integration, hosted on AWS.

Software Developer Intern

Ling Infotech | January 2023 – September 2023

- Collaborated on full stack projects using React.js, Node.js, and MongoDB.
- Worked closely with senior developers to build web applications, enhance backend APIs, and implement user authentication mechanisms.
- Designed and implemented RESTful APIs, enabling smooth communication between the frontend and backend systems.

Tender Quoting Executive

Intelect Technologies | July 2021 – January 2023

- Managed government project tenders, including quoting and documentation for various government bids.
- Improved the accuracy and efficiency of the tender process, contributing to successful project bids.
